Message From President

HUMANISM FOUNDATION was founded in 2021. In keeping with the growth and expansion of **HUMANISM FOUNDATION**, we have sought and obtained the status of West Bengal body that can operate West Bengal in the country. Education continues to be the core concern of **HUMANISM FOUNDATION**, as it seeks to improve the quality of teaching imparted in its schools.

Our bid to ensure gender equity, we have been attempting affirmative action's like the partnership **HUMANISM FOUNDATION** entered into to run the "Father and Daughter Alliance", a success by any standard.

HUMANISM FOUNDATION objective is to provide as far as possible equal opportunities to the children, who would, otherwise, have been sulking on the margins of society.

I present the Activity Report and statement of accounts for the year 2020-21.

Your feedback is most welcome.

Mr. Nimal Kumar Dutta (President)

GOAL

Holistic Development of the Society.

VISION

To make our society to be self-supportive in all respect through proper and meaningful utilization of available resources.

MISSION

- i) To eradicate poverty and promote self-reliance by improving the quality of life of the poor deprived community through meaningful socioeconomic growth in all phases of life.
- ii) To educate, organize, advocate and empower the rural poor for promoting development as a liberating force aimed at gender equity, social justice, self-empowerment and entitlement realization.
- iii) To uplift the deprived class of our society by providing them with the necessary things those are required for betterment of life.
- iv) To work on the grassroots level so that the real needy ones can get the basic amenities and can get recognition in the society.

STRATEGY

- ✓ Formation and Nurturing of Self-Help Groups.
- ✓ Exploring Sustainable Livelihood Portfolio.
- ✓ Participatory Development.
- ✓ Micro Planning.
- ✓ Taking up challenge of RCH/HIV/AIDS.
- ✓ Strengthening Local Self Governance.

- ✓ Capacity Building through organization Seminars, Workshops, Training both Vocational and Non- Vocational and Camps.

Our Activities

- ✓ Covid Care
- ✓ Blanket Distribution
- ✓ Nutritional Health Drink
- ✓ Text Book Distribution
- ✓ Distribution of food to the poor
- ✓ Covid Awareness
- ✓ Women's Computer
- ✓ Education

Covid Care

Our organization arrange Covid care center in which time the corona increase day by day in India not any prevention for this disease. Infect the adults over age 65 and people of any age with existing long-lasting (chronic) medical conditions should call their health care provider as soon as symptoms start. These factors put people at greater risk of becoming seriously ill with COVID-19. People with these conditions who get COVID-19 may also be eligible for certain treatments. These treatments need to start within a few days after symptoms start.

Follow the health care provider's suggestions about care and staying at home (isolating). Talk to the provider if you have any questions about treatments. Help the sick person get food and any medication needed. And, if needed, take care of the person's pet.

Also think about how caring for a sick person might affect your health. If you are age 65 or older or have an existing long-lasting (chronic) medical condition, such as heart or lung disease or diabetes, you may be at higher risk of serious illness with COVID-19. You might think about staying away from the sick person and finding another person to provide care. Also, you might choose to wear a face mask that gives higher protection.

Blanket Distribution

Our Organization distribute winter blankets to patients, people living on the streets every winter. Our organization runs Blanket Donation Campaign, where we provide high-quality warm blankets to the underprivileged living in the in our country.

Where is no better gift than providing warm clothing to the needy during the winter season. Lakh's of homeless experience bitterness of winter and are at great risk of suffering from severe illnesses, but at the same time, it has given us an opportunity to serve humanity by donating blankets to the needy. There cannot be a bigger satisfaction than saving someone's life.

Nutritional Health Drink

In the beginning, there was water—abundant, refreshing, providing everything the body needs to replenish the fluids it loses. Humans relied on it as the only beverage for millions of years. Milk was introduced with the advent of agriculture and the domestication of animals. Then came beer and wine and coffee and tea, all consumed for taste and pleasure as much as for the fluids they provide. The newcomers—sugary beverages including soda, sports drinks, and energy drinks—offer hydration but with a hefty dose of unnecessary calories that the body may have a hard time regulating. Alternatively, “diet” drinks offer sweetness without the calories, but does that make them a healthy choice?

With so many options, it’s easy to be confused about which beverages are best for our health. Follow the links below for an in-depth look at each, but if you’re short on time, here’s the takeaway:

Text Book Distribution

We distribute books to 2,200 children through 25 mobile libraries across the State. We have tied up with an NGO called Centre for Justice and Peace to distribute books in all over Darjeeling district.

Distribution of food to the poor

Our Organization distribute food item the most essential need of every person. The Governor is further pleased to order that in rest of the districts of West Bengal the present method of distribution, i.e., those who have already received the Digital Ration Cards and their old paper Ration Cards being stamped with “NFSA/RKSY Cards Delivered” will get food grains on production of Digital Ration Cards and the others who have submitted applications in Form-III/IV but have not received the Digital Ration Cards

shall continue to receive the food grains on the basis of production of the old paper Ration Card along with a receipt copy of Form-III/IV until further order.

Covid Awareness

In this time of corona increase very fast people were not aware of this virus but government arrange the awareness camp of all arrange all types of food facilities and sitting plan of all arrangement show all preventions like wear mask keep distance in every place hand senitize don't go outside without any reason.

Women Computer

Women in computing were among the first programmers in the early 20th century, and contributed substantially to the industry. As technology and practices altered, the role of women as programmers has changed, and the recorded history of the field has downplayed their achievements. While computing began as a field heavily dominated by women, this changed in western countries shortly after this training. In the India, recognizing software development was a significant expense, companies wanted to hire an "ideal programmer". Psychologists William Cannon and Dallis Perry were hired to develop an aptitude test for programmers, and from an industry that was more than 50% women they selected 1400 people, 1200 of whom were male. This paper was highly influential and claimed to have "trained the industry" in hiring programmers, with a heavy focus on introverts and men.

Education

As we all know, education is important in our life. Education is the only thing that helps us to differentiate what is wrong and what is right. Without education we can't do what we want or we can't reach our destination. Education helps us in each and every field of our life.

To me education is the gateway to success. Success can be achieved when people have knowledge, skills and attitude. All these things can be gained only with the help of education. I believe that education is the only way which shows us many ways to lead and utilize our life properly. No person in the world with education is neglected.

It is the third eye of the person, because when we gain education, we get to know about things in the world without even seeing them.

THANK YOU
